

Post Exercise Body Lotion

This refreshing lotion is an excellent carrier for fragrances and will provide moisturizing along with a skin smoothing effect.

	<u>Compound</u>	<u>Wt %</u>
I.	Water	51.65
	Carbomer 940	0.25
	Triethanolamine (99%)	0.40
II.	Water	30.00
	Cola [®] Lipid ST	1.00
	SD3A Alcohol	15.00
III.	Phenyl Dimethicone	1.50
	Titanium Dioxide (Cosmetic White)	<u>0.20</u>
	Total	100.00

PROCEDURE:

Slowly add Carbomer 940 to water with good agitation. After the Carbomer 940 is dissolved, add triethanolamine. In a separate container, mix water with Cola[®]Lipid ST and heat to 65½°C with mixing. When dissolved, cool to 30 - 35½°C and then add SD3A alcohol. Blend Part II to I, mixing well, and add Part III as a slurry. Blend together until a uniform white lotion is obtained. Add color, fragrance and preservative as required.
