**Recommended use of the chemical and restrictions on use**

**Application**  Surfactant

**Uses advised against**  No specific uses advised against are identified.

**Details of the supplier of the safety data sheet**

**Manufacturer**  Colonial Chemical, Inc.
225 Colonial Drive
South Pittsburg, TN 37380
U.S.A.
+1 (423) 837-8800

**Emergency telephone number**

**Emergency telephone**  Toll free (in USA, Canada, Puerto Rico, Virgin Islands only): 1-800-424-9300
Direct dial: +1 703-527-3887

2. Hazard(s) identification

**Classification of the substance or mixture**

**Physical hazards**  Not Classified

**Health hazards**  Eye Irrit. 2A - H319

**Environmental hazards**  Aquatic Acute 1 - H400

**Label elements**

**Hazard symbols**

![Warning Symbol]  ![Flammable Symbol]

**Signal word**  Warning

**Hazard statements**

H319 Causes serious eye irritation.
H400 Very toxic to aquatic life.
Cola®Lipid C

**Precautionary statements**
- P264 Wash contaminated skin thoroughly after handling.
- P273 Avoid release to the environment.
- P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.
- P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P337+P313 If eye irritation persists: Get medical advice/ attention.
- P391 Collect spillage.
- P501 Dispose of contents/ container in accordance with national regulations.

**Other hazards**
This product does not contain any substances classified as PBT or vPvB.

### 3. Composition/information on ingredients

**Mixtures**

| 1-Propanaminium, 3,3′,3″-[phosphinylidynetris(oxy)]tris[N-(3-aminopropyl)-2-hydroxy-N,N-dimethyl-, N,N′,N″-tri-C6-18 acyl derivs. trichlorides | 30-60% |
| CAS number: 83682-78-4 |
| M factor (Acute) = 1 |

**Classification**
- Eye Irrit. 2A - H319
- Aquatic Acute 1 - H400

| Glycerin | 1-5% |
| CAS number: 56-81-5 |

**Classification**
- Not Classified

| 3-aminopropyl(dimethylamine | <1% |
| CAS number: 109-55-7 |

**Classification**
- Flam. Liq. 3 - H226
- Acute Tox. 4 - H302
- Acute Tox. 4 - H312
- Skin Corr. 1B - H314
- Eye Dam. 1 - H318
- Skin Sens. 1 - H317
- STOT SE 3 - H335
- Aquatic Acute 3 - H402
Cola®Lipid C

Amines, coco alkyldimethyl
CAS number: 61788-93-0
M factor (Acute) = 1

<1%

Classification
Acute Tox. 4 - H302
Skin Corr. 1B - H314
Eye Dam. 1 - H318
Aquatic Acute 1 - H400

The full text for all hazard statements is displayed in Section 16.

Composition comments
* The identity or exact percentage is withheld as a trade secret.

4. First-aid measures

Description of first aid measures

General information
Get medical attention if any discomfort continues. Show this Safety Data Sheet to the medical personnel.

Inhalation
Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if symptoms are severe or persist.

Ingestion
Rinse mouth thoroughly with water. Get medical advice/attention if you feel unwell. Do not induce vomiting unless under the direction of medical personnel.

Skin Contact
Rinse with water.

Eye Contact
Rinse with water. Do not rub eye. Remove any contact lenses and open eyelids wide apart. Get medical attention if any discomfort continues.

Protection of first aiders
First aid personnel should wear appropriate protective equipment during any rescue.

Most important symptoms and effects, both acute and delayed

General information
The severity of the symptoms described will vary dependent on the concentration and the length of exposure.

Inhalation
No specific symptoms known.

Ingestion
No specific symptoms known.

Skin Contact
No specific symptoms known.

Eye contact
Irritating to eyes.

Indication of immediate medical attention and special treatment needed

Notes for the doctor
Treat symptomatically.

5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media
The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.

 Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Special hazards arising from the substance or mixture
## Cola®Lipid C

### Specific hazards
Containers can burst violently or explode when heated, due to excessive pressure build-up.

### Hazardous combustion products
Thermal decomposition or combustion products may include the following substances:
Harmful gases or vapors.

### Advice for firefighters
#### Protective actions during firefighting
Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapors and protect men stopping the leak. Avoid discharge to the aquatic environment. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.

### Special protective equipment for firefighters
Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Standard Firefighter's clothing including helmets, protective boots and gloves will provide a basic level of protection for chemical incidents.

### 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

##### Personal precautions
Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Do not touch or walk into spilled material.

##### Environmental precautions
Avoid discharge into drains or watercourses or onto the ground. Avoid discharge to the aquatic environment.

#### Methods and material for containment and cleaning up

##### Methods for cleaning up
Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Small Spillages: Collect spillage. Large Spillages: Absorb spillage with non-combustible, absorbent material. The contaminated absorbent may pose the same hazard as the spilled material. Collect and place in suitable waste disposal containers and seal securely. Label the containers containing waste and contaminated materials and remove from the area as soon as possible. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dangerous for the environment. Do not empty into drains. For waste disposal, see Section 13.

### Reference to other sections
For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.

### 7. Handling and storage

#### Precautions for safe handling

##### Usage precautions
Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Handle all packages and containers carefully to minimize spills. Keep container tightly sealed when not in use. Avoid the formation of mists. Avoid discharge to the aquatic environment. Do not handle until all safety precautions have been read and understood. Do not handle broken packages without protective equipment. Do not reuse empty containers.

##### Advice on general occupational hygiene
Wash promptly if skin becomes contaminated. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.

### Conditions for safe storage, including any incompatibilities
Cola®Lipid C

**Storage precautions**
Store away from incompatible materials (see Section 10). Keep only in the original container. Keep container tightly closed, in a cool, well ventilated place. Keep containers upright. Protect containers from damage.

**Storage class**
Miscellaneous hazardous material storage.

**Specific end use(s)**
The identified uses for this product are detailed in Section 1.

---

### 8. Exposure controls/Personal protection

#### Control parameters

**Occupational exposure limits**

**Glycerin**

- Long-term exposure limit (8-hour TWA): OSHA 5 mg/m³ respirable fraction
- Long-term exposure limit (8-hour TWA): OSHA 15 mg/m³ total dust

OSHA = Occupational Safety and Health Administration.

#### Exposure controls

**Protective equipment**

- **Appropriate engineering controls**: Provide adequate ventilation. Observe any occupational exposure limits for the product or ingredients.
- **Eye/face protection**: Wear tight-fitting, chemical splash goggles or face shield. If inhalation hazards exist, a full-face respirator may be required instead.
- **Hand protection**: No specific hand protection recommended. Avoid contact with skin.
- **Other skin and body protection**: Wear appropriate clothing to prevent repeated or prolonged skin contact.
- **Hygiene measures**: Wash after use and before eating, smoking and using the toilet. Do not eat, drink or smoke when using this product.
- **Respiratory protection**: Ensure all respiratory protective equipment is suitable for its intended use and is NIOSH approved. Check that the respirator fits tightly and the filter is changed regularly. Gas and combination filter cartridges should comply with OSHA 1910.134. Full face mask respirators with replaceable filter cartridges should comply with OSHA 1910.134. Half mask and quarter mask respirators with replaceable filter cartridges should comply with OSHA 1910.134.
- **Environmental exposure controls**: Keep container tightly sealed when not in use. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubs, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

---

### 9. Physical and chemical properties

**Information on basic physical and chemical properties**

- **Appearance**: Liquid.
- **Color**: Amber.
- **Odor**: Characteristic.
- **Odor threshold**: Not available.
Cola®Lipid C

pH (10% aqueous) 6.5 - 7.5

Melting point Not available.

Initial boiling point and range > 93°C/199.4°F

Flash point > 94°C/201.2°F Pensky-Martens closed cup.

Evaporation rate Not available.

Flammability (solid, gas) Not flammable.

Upper/lower flammability or explosive limits Not available.

Vapor pressure Not available.

Vapor density Not available.

Relative density 1.03 g/mL @ 25°C

Solubility(ies) Dispersible in water.

Partition coefficient Not available.

Auto-ignition temperature Not available.

Decomposition Temperature Not available.

Viscosity Not available.

Explosive properties Not considered to be explosive.

Oxidizing properties Does not meet the criteria for classification as oxidizing.

Other information None.

Surface Tension Not available.

% Solids 45 - 48

10. Stability and reactivity

Reactivity See the other subsections of this section for further details.

Stability Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.

Possibility of hazardous reactions No potentially hazardous reactions known.

Conditions to avoid There are no known conditions that are likely to result in a hazardous situation.

Materials to avoid No specific material or group of materials is likely to react with the product to produce a hazardous situation.

Hazardous decomposition products Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors.

11. Toxicological information

Information on toxicological effects

Acute toxicity - oral
Cola®Lipid C

Notes (oral LD₅₀)
Based on available data the classification criteria are not met.

Acute toxicity - dermal
Notes (dermal LD₅₀)
Based on available data the classification criteria are not met.

Acute toxicity - inhalation
Notes (inhalation LC₅₀)
Based on available data the classification criteria are not met.

Skin corrosion/irritation
Based on available data the classification criteria are not met.

Animal data
Serious eye damage/irritation
Causes serious eye irritation.

Respiratory sensitization
Based on available data the classification criteria are not met.

Skin sensitization
Based on available data the classification criteria are not met.

Germ cell mutagenicity
Based on available data the classification criteria are not met.

Carcinogenicity
Based on available data the classification criteria are not met.

IARC carcinogenicity
None of the ingredients are listed or exempt.

Reproductive toxicity
Reproductive toxicity - fertility
Based on available data the classification criteria are not met.

Reproductive toxicity - development
Based on available data the classification criteria are not met.

Specific target organ toxicity - single exposure
STOT - single exposure
Not classified as a specific target organ toxicant after a single exposure.

Specific target organ toxicity - repeated exposure
STOT - repeated exposure
Not classified as a specific target organ toxicant after repeated exposure.

Aspiration hazard
Based on available data the classification criteria are not met.

General information
The severity of the symptoms described will vary dependent on the concentration and the length of exposure.

Inhalation
No specific symptoms known.

Ingestion
No specific symptoms known.

Skin Contact
No specific symptoms known.

Eye contact
Irritating to eyes.

Route of exposure
Ingestion Inhalation Skin and/or eye contact

Target Organs
No specific target organs known.

12. Ecological information
Cola®Lipid C

Toxicity
Aquatic Acute 1 - H400 Very toxic to aquatic life.

Acute aquatic toxicity
NOEC, 48 hours: 2.5 mg/l, Daphnia magna
EC₅₀, 48 hours: 3.077 mg/l, Daphnia magna

Acute toxicity - aquatic plants
NOEC, 72 hours: 0.125 mg/l, Pseudokirchneriella subcapitata
EC₅₀, 72 hours: 0.19 mg/l, Pseudokirchneriella subcapitata

Acute toxicity - microorganisms
NOEC, 28 days: 500 mg/l, Activated sludge
EC₅₀, 28 days: 495.48 mg/l, Activated sludge

Persistence and degradability
The degradability of the product is not known.

Biodegradation
The product is readily biodegradable.
This product meets the criteria for a surfactant under the EU Detergents Regulation (EC) 648/2004.

Bioaccumulative potential
No data available on bioaccumulation.

Partition coefficient
Not available.

Mobility in soil
No data available.

Other adverse effects
None known.

13. Disposal considerations

Waste treatment methods

General information
The generation of waste should be minimized or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues and hence be potentially hazardous.

Disposal methods
Do not empty into drains. Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labeled with their contents. Incineration or landfill should only be considered when recycling is not feasible.

14. Transport information

General
This product may be consigned under the Limited Quantity or Excepted Quantity provisions.

Sea transport notes
Class 9: Limited quantity packaging is maximum 5 L or 5 kg. Excepted quantity package is maximum 30 ml or 30 g (inner) and 1000 g total.

Air transport notes
Class 9: Limited quantity packaging is maximum 5 L or 5 kg (inner) and 30 kg gross. Excepted quantity package is maximum 30 ml or 30 g (inner) and 1 kg gross. These limits apply to both passenger and cargo aircraft.
Cola®Lipid C

DOT transport notes

Class 9 Special Provision: Use of the Class 9 classification, including markings, is not required for domestic ground transportation in USA if the material does not meet the definition of a hazardous waste or hazardous substance as defined in 49 CFR 171.8, even though it is designated as environmentally hazardous by another Competent Authority. Ref: 49 CFR 172.102(c)(1)(Provision 146).

16. Other information
Cola®Lipid C

Abbreviations and acronyms used in the safety data sheet

TDG: The transport of dangerous goods act

IATA: International air transport association.
ICAO: Technical instructions for the safe transport of dangerous goods by air.
IMDG: International maritime dangerous goods.
CAS: Chemical abstracts service.
ATE: Acute toxicity estimate.
LC₅₀: Lethal concentration to 50% of a test population.
LD₅₀: Lethal dose to 50% of a test population (median lethal dose).
EC₅₀: 50% of maximal effective concentration.
PBT: Persistent, bioaccumulative and toxic substance.
vPvB: Very persistent and very bioaccumulative.

Classification abbreviations and acronyms

Eye Irrit. = Eye irritation
Aquatic Acute = Hazardous to the aquatic environment (acute)

Training advice

Only trained personnel should use this material.
